

SLAC National Accelerator Laboratory Panofsky Fellowship

The Panofsky Fellowship honors SLAC National Accelerator Laboratory's founder and first Director, Wolfgang K. H. Panofsky. It is intended to recognize exceptional and promising young scientists who would most benefit from the unique opportunity to conduct their research at SLAC National Accelerator Laboratory. While the scientific direction of the candidates is expected to have some overlap with existing programs, an emphasis will also be placed on the potential for innovation and growth of new opportunities as their career develops. The intent is to foster the creativity and high achievement to which W.K.H. Panofsky devoted himself both as a researcher and as a visionary leader in enabling fundamental science research.

Fellowship appointments are awarded by the SLAC Director following a lab-wide selection process. The appointment carries a five-year term with salary and benefits comparable to an Assistant Professorship at SLAC National Accelerator Laboratory along with generous research support funds. Fellows routinely serve as dissertation advisors to Stanford University graduate students from Stanford University. Since the Fellowship's inception in 1989, [Panofsky Fellows](#) have gone on to play important roles in their fields as members of the Faculty and Staff of prominent institutions.

Candidate area of research should encompass one or more areas within the general scope of the science program at SLAC:

- Accelerator science
- Biosciences
- Chemical science
- Elementary particle physics
- Material science
- Particle astrophysics and cosmology

To Apply:

Applicants should provide a cover letter, a CV and a vision statement for their proposed research at SLAC, along with arranging for three supporting reference letters sent directly to amyr@slac.stanford.edu, referencing Panofsky Fellowship in the subject of the email. Candidates should be in their early postdoctoral careers, yet widely recognized as having potential for exceptional scholarship, breadth, innovation, and leadership. **The deadline for the 2015 application is March 15, 2015. Applications should be submitted via the link below:**
